

THE BRIDGE

**PUSHING HUMANITY FORWARD
BY LINKING SCIENCE AND BUSINESS**

The Bridge Forum is on a mission to tackle humanity's most urgent global challenges to find the solutions for tomorrow. By linking science and business within the areas of life science and materials science. We believe that the only way to solve the world's most pressing problems is to gather the smartest people around the world with different backgrounds, expertise and experiences and start collaborating to create new sustainable businesses. The Bridge is initiated by Invest in Skåne, Medicon Village, Region Hovedstaden (Copenhagen region), CR Competence and the two state of the art research laboratories MAX IV and ESS.

The Bridge Network Membership includes:

- ⇒ Free access to all The Bridge Interviews
- ⇒ 1 ticket to The Bridge Summit 2020 (value: 2.500 SEK) - network, inspiration and sustainable action!

What we do

We offer a platform for people to meet, and together identify, understand and solve these challenges. Our monthly The Bridge Talks and Interviews offers inspiration, knowledge sharing and disruptive business models. Through The Bridge Method, we get companies, organizations and academia to meet and start collaborating. And every other year, we present the results, new co-operations and solutions at the The Bridge Summit.

Who we are

The Bridge Forum is based in the Greater Copenhagen area with the most advanced state of the art science centers MAXIV and ESS that focus on life and materials sciences; and with 14.000 researchers, 17 universities and colleges of higher education and 19 science parks and innovation hubs in the region. Adding our ever-growing network with brains from all over the world we have a world leading platform to actually start solving challenges addressed by the United Nations Sustainable Development Goals like health, sustainable energy and new materials.
